

Manufacturer and Distributor of Alloy & Stainless Fasteners
www.indufast.com

With the formation of **Fastec Engineering**, our own fully equipped machining facility, we can offer one stop sourcing for your fastener requirements. Designed strictly to manufacture special fasteners, **Fastec** can custom manufacture to your specifications, in virtually any dimension or material. We manufacture to the highest level of quality, meeting ASTM, ANSI, SAE, DIN, ISO and IFI specifications. Rigorous in-house quality control procedures, prequalification and monitoring of sources, and traceability allows **Fastec** to meet constantly changing market demands. **Fastec** has the ability to produce both small and large production runs with quality and customer delivery requirements always the top priority. Please contact our sales team for more information and visit our **Manufacturing** section at **www.indufast.com** where you will find fill in the blank fastener drawings for a quick and accurate quotation.

Machining

¼" TO 4" diameter threading range
CNC turning
CNC milling
Conventional turning
Slotting
Drilling
Tapping
Broaching
Thread cutting
Swiss style CNC machining

Materials

Carbon steel C1018, 1020, 12L14, A36, 44W
Alloy steel 4140, 4340
Aluminum, naval bronze
Brass, silicon bronze, 17-4 PH, A286
Nitronic 40,50,60
Monel 400,500
Titanium, hastelloy
Stainless 300,400 series
Inconel, 255 SMO
Duplex 2205

* Other materials available upon request

Testing

Nondestructive
Tensile
Shear strength
Magnetic particle
Tension
Fatigue
Charpy impact
Hardness
Chemical analysis
Shear testing

Other Services

Heat treating
Case hardening
Grinding
Hot forging
Thread rolling
Deep hole drilling
Welding
Cutting
Chamfering
Custom plating
